Robotics Camps (grades 2-6) \$150: Working with a buddy, your child will enjoy fun, hands-on projects that include building and programming LEGO® robots. Each session encourages creativity and imagination as kids brainstorm, build, and experiment to answer questions or win friendly competitions.

Video Game Design and Computer Coding (grades 3-8) \$200: Your child will learn computer programming through fun projects like animating stories and creating video games. Kids have access to thousands of backgrounds, props, and sound effects to help bring their creations to life while learning problem-solving, planning, and coding skills.
